

**Amendments to the Claims**

The listing of claims will replace all prior version, and listings of claims in the application.

**Listing of Claims**

Claim 1 (currently amended) An apparatus of a multiple function memory card, which is a fixed in a digital camera, said apparatus comprises:

a data/signal control unit, said data/signal control unit being connected with said digital camera and a personal digital assistant to transmit an image datum, which is produced from said digital camera; and

a memory, said memory being connected with said data/signal control unit and said personal digital assistant to save a backup ~~backuper~~ datum of said personal digital assistant and said image datum.

Claim 2 (currently amended) The apparatus according to claim 1, wherein said memory is a nonvolatile memory.

Claim 3 (currently amended) The apparatus according to claim 2, wherein said nonvolatile memory is a compact flash.

Claim 4 (original) The apparatus according to claim 2, wherein said memory can be used to save said image datum forever.

Claim 5 (currently amended) An apparatus of a multiple function memory card, which is fixed in a digital camera and is used in a personal digital assistant, said apparatus comprises:

a data/signal control unit, said data/signal control unit being connected with said digital camera and a personal digital assistant to transmit an image datum, which is produced from said digital camera;

said personal digital assistant comprising a driver, wherein said personal digital assistant can provide a digital camera mode and a datum memory mode for a user when said driver detects said multiple function memory card; and

a memory, said memory being connected with said data/signal control unit and said personal digital assistant, wherein said memory is used to save said image datum when said digital camera mode is selected and said memory is used to save a ~~backused~~ backup datum of said personal digital assistant when said datum memory mode is selected.

Claim 6 (currently amended) The apparatus according to claim 5, wherein said memory is a nonvolatile memory.

Claim 7 (currently amended) The apparatus according to claim 6, wherein said nonvolatile memory is a compact flash.
